PART C: PERFOMANCE OVERVIEW AND BACKGROUND FOR PROGRAM FUNDING

During the FY 2020/2021, source of funds for Health services included |National government allocations (equitable allocation0, conditional grants (which constituted THS-UCP and DANIDA funding), User fees, NHIF reimbursements mainly from Linda Mama as well as from Development partners and faith-based organizations, NGOs and households (individual out of pocket payments (OOP). Donor support is mainly for O&M as well as personnel emoluments for technical staff who are stationed in the public health facilities.

Nairobi City County households are the major financiers of health care, contributing more than half of the total health expenditure towards UHC. Currently, NCCG is working on measures and interventions to minimize out-of-pocket health-care financing through registration of indigents, accreditation of public health facilities, increment in claims from NHIF and capitation.

Constraints and challenges in budget implementation and how they can be addressed

The County health sector is highly depended on donor funding especially on special programs (HIV, TB, MNCH, WASH and Nutrition, Health Systems strengthening, etc.).

The county faces the challenges of decreased donor funding – for instance: world bank transforming health system Universal heath coverage funding for enhancing reproductive health services was stopped in 2021/2022 while DANIDA funding will end in 2025. The County must increase domestic resource mobilization to fund health services. This will include enhancing the coverage of the NHIF insurance plan to reduce financial risk burden. The county should also enhance stakeholders' engagement in health care service delivery.

The health sector has not been able to meet its full potential in revenue collection for reason indicated in the table above

Constraints and challenges in the budget implementation and how they are being addressed:

The Sector faced the following challenges

Budget cuts may affect implementation of prioritized programmes and projects. For instance, the sector has not been able to secure adequate resources for procurement of road and public lighting maintenance materials following budget cuts;

Settling pending bills as first charge will hinder implementation of prioritized programmes and projects.

Delay in transfer of ongoing projects and programmes from NMS to NCCG following elapse of NMS likely to affect their implementation

Under staffing of technical personnel in the department continues to affect effective service delivery; Vandalism of public lighting installations and road furniture continues to slow down progress of works **How they can be addressed:**

Need to provide adequate budget for programmes and projects to ensure set targets are achieved Need to identify alternative sources for settling pending bills

Need to fast track signing of Deed of Novations to transfer all ongoing projects and programmes from NMS to NCCG

Need to fast track recruitment and training of technical personnel to build human resource capacity for implementation of projects and programmes

Need to increase vigilance to curb vandalism by enhancing collaboration with enforcement agencies, local leaders and residents ie County Inspectorate, National police, Areas MCAs among other stakeholders.

PART C. PERFORMANCE OVERVIEW AND BACKGROUND FOR PROGRAMME(S) FUNDING

C.1 Brief description of mandates

Commerce, Tourism and Cooperatives is a very important sector, as it is mandated with supporting growth of Micro, Small and Medium Enterprises' (MSMEs) growth and development, one of the highest formal and informal employer in the county. Development of this Sector therefore, is central to realization of national development goals anchored in the Kenya Vision 2030 and the country's Big Four Agenda. The Sector is particularly important for providing jobs and income opportunities for economically excluded segments of the population including youth, women, persons with disabilities and low-skilled persons

The liquor board is mandated to regulate production, sale and consumption of alcoholic drinks

PART C3 MAJOR ACHIEVEMENTS BASED ON THE PLANNED OUTPUTS/SERVICES FOR THE YEAR 2019/20- 2020/2021

Trade development is crucial in supporting Micro and Small Enterprises (MSEs) as it is the highest employment sub sector for both formal and informal traders. The department has initiated this support for MSE by construction and tooling of a leather manufacturing facility in Kariokor market premises (Starehe sub county) in collaboration with the State Department for Industrialization This is being replicated in the woodwork, metal fabrication and textile MSEs. A draft policy has been finalized to create a revolving fund for supporting MSEs. Currently the county has 46 markets that are in-equitably distributed across the sub counties. To fill the trading facilities gap, the County collaborated with the National government and development partners in infrastructure development which has seen completion of 5 markets; Mwariro, Karandini, Westlands, Quarry road and New Kangundo Road markets in the financial year creating more than 5,000 trading spaces Co-operative development continued with registration of cooperatives as well as reviving dormant ones, and carried out statutory audits

The Liquor Board had planned to carry out alcohol and drug abuse reduction programmes, establish rehabilitation centres and sub-County containerized Liquor Offices and formulate and amend Liquor policy and legislation respectively. Sensitization programmes for reduction in alcoholism and drug abuse were done across the County and eight sub-County containerized offices were constructed.

PART C.4 CONSTRAINTS AND CHALLENGES IN BUDGET IMPLEMENTATION AND MITIGATION

Table 3Sector challenges and proposed mitigation

SN	Challenges	Proposed Mitigation
1	Inadequate transport. The sub sector lacks sufficient number of vehicles for field operations	Provide for purchase of requisite motor vehicles
2	Inadequate number of staff and Lack of requisite technical capacity	Embark on staff recruitment and training
3	Lack of policies and legal frameworks to govern sector operations	Fast track establishment and/or finalization of initiated legal framework
4	The conversion of residential areas into commercial zones leads to regulation problems and frequent complaints from residents.	During the stakeholders' meetings, the stakeholders such Urban Planning Sector and Residents Associations should be invited and deliberate on change of user.

PART D. PROGRAMME OBJECTIVES

The sector's goal is to provide a sound policy, legal and regulatory framework for supporting local and foreign trade and investment, towards the County's socio-economic growth and development

Table 4 Programmes and their objectives

	<u> </u>	
SN	Programme	OBJECTIVE
1	Co-operative Development and Audit Services	To promote compliance with cooperative legislation
2	Trade Development and Markets services	To create an enabling environment for domestic and international trade and investment
3	Licensing and Fair-Trade Practices	To improve effectiveness in issuance, control and regulate business licensing and ensure consumer protection
4	Tourism & Culture Development	To promote tourism development in the county
5	Liquor Licensing Services	To regulate production, sale and consumption of alcoholic drinks

D.2. PROPOSED PROGRAMMES AND PROJECTS

Commerce, Tourism and Cooperatives is mandated with supporting growth and development of Micro, Small and Medium Enterprises' (MSMEs), one of the highest formal and informal employer in the county. Development of this Sector therefore, is central to realization of national development goals anchored in the Kenya Vision 2030. The county manifesto also outlines the supporting measures towards this realization through MSME financing by establishing a ward Biashara fund, one of whose focus is providing opportunities for job creation (startups) and supporting income generating opportunities for economically excluded segments of the population including youth, women, persons with disabilities and low-skilled persons. There is a plan to increase trading facilities by constructing 20 market within a period of five (5No.) years, among which, at least four of these markets will be constructed within this financial year. De-criminalization of hawkers will be realized through providing designated trading areas within the central business district (CBD), with consideration of fair trading practices for licensed formal traders.

The cooperatives department will be carrying out capacity building activities for these hawkers in an endeavor to driving them to establish SACCOs.

Trade licensing endeavours to improve ease of doing business by collapsing various licenses into a unified business permit, in collaboration with the respective sectors.

The proposed Nairobi City County Trade Policy will revised to address issues within the manifesto to include support for trade financing strategy, support for industrialization, formalization of informal traders in collaboration with other government agencies and establishment of the Nairobi annual festival

PART C: PERFORMANCE OVERVIEW AND BACKGROUND FOR PROGRAMME FUNDING

The overall objective of the Public Service Management and Transformation in the County is to ensure that functions are properly structured and staffed to facilitate transformation of the entire workforce in the county for efficient and effective service delivery.

The increasing demand for better and quality services by the Nairobians has set the stage for a new order in the management and accountability of county and hence the need to focus more on the welfare of the citizenry. At the forefront in the delivery of services is the need for a robust and efficient Public Service.

The expanding wage bill is a concern as it is impacting negatively to the economic development of the county. Currently, the recurrent expenditure has reached unsustainable levels, crowding out resources meant for development. The total estimated wage bill is slightly over 36.7% of overall projected revenues. This is likely to be worsened if the recently negotiated Collective Bargaining Agreement, recruitments and upgrading and promotions if implemented is likely to increase the wage bill by approximately 15%. This poses a serious threat to the funding of transformational development projects, and has the potential to severely affect the county's economic prospects.

The re-organization of the county is guided by the need to focus on what the county does best and allow it to concentrate on its core functions. The rationalization of the staff will seek to achieve "fit for purpose" organizational structures which will facilitate realization of a devolved system of governance, efficiency and effectiveness in service delivery.

Also, the county is faced with a challenge of an aging workforce that has impacted on service delivery considering that over 70% of the County workforce are support staff. Most staff are unskilled and require training and development

PART C: PERFORMANCE OVERVIEW AND BACKGROUND FOR PROGRAMMES FUNDING.

Brief Description of mandate

The Sector performs extension and regulatory services and agri-business promotion as well as food situation assessment. Through extension services, the Sector empowers producers of crops, livestock and fisheries on new technologies that achieve greater production under the limited arable land space in the County. The Sector also promotes tree growing as a way of ensuring sustainable agricultural land use and greening of the city to enhance environmental benefits associated with trees.

The regulatory services offered by the Sector manage animal and plant diseases, pests and vectors which achieve greater health productivity of animals and plants. The Sector also inspects food for contamination with micro-organisms, agro-chemicals, veterinary medicines and environmental contaminants while also controlling zoonotic diseases to protect public health. In addition, the Sector regulates and controls tree cutting and pruning.

Under the food situation services, the Sector carries out regular surveillance for food security and advises the rest of the Government to respond appropriately. Food system appraisals are conducted to determine gaps and weaknesses for timely intervention, done closely with partners. Through this service, Nairobi residents are better assured of their right to food as provided by Article 43 (1) (c) with greater contribution to the right to health under Article 43 (1) (a) of the Constitution of Kenya (2010).

INTRODUCTION

This program based budget has been prepared in accordance with the provisions of the Public Finance Management (PFM) Act, 2012 and the County Governments Act, 2012. Section 12(7)(c) puts the responsibility to prepare annual financial estimates for County Assemblies on the County Assembly Service Board (CASB). This responsibility has further been delegated to the Clerk of the County Assembly under Section 129(3) of the Public Finance Management Act, 2012.

Clause 12 of the second schedule of the PFM Act, 2012 requires that effective 2014/2015 financial year all budgets of the County Governments shall be program based. The concept of Program Based Budgets (PBB) requires expenditures to be based on specific outputs, outcomes and performance indicators based on the core mandate of the particular institution preparing the estimates. The Nairobi City County Assembly's key mandate is primarily Legislation, Oversight and Representation. This mandate forms the key program of the County Assembly out of which several sub-programs, outputs and key performance indicators have been derived.

To better inform the activities planned for the financial year 2022/2023, we have aligned ourselves with the overall vision and the mission statement of the County Assembly as well as its goals, objectives and core values.

KEY HIGHLIGHTS OF THE 2022/2023 FINANCIAL ESTIMATES

The draft financial budget estimates for the FY2022/23 were prepared in consideration of the expenditure ceilings provided under the County Fiscal Strategy Paper (CSFP) for financial year 2022/2023. The FY2022/23 CFSP proposed total budget expenditure of Ksh.3.975B for the County Assembly. From this, the recurrent budget ceiling stood at Ksh.1.854B, and Kshs.1,210M for Capital and development. In addition, an allocation of Kshs.911M was made towards cash transfers to the scheme fund as additional funding. This budget proposal was presented before the Senate in a memorandum format to form the basis to advocate for increase in the FY2022/23 recurrent budget ceiling for the Nairobi County Assembly.

Consequently, the Senate's County Allocation Revenue Bill, 2022 informed the Nairobi City County Assembly proposed recurrent budget ceiling as Kshs.1,446,962,393. The County Assembly's FY2022/23 recurrent budget has been rationalized to conform to the budget provisions by CARB, 2022.

Further, the Commission of Revenue Allocation vide memo CRA/C/30 VOL.1(87) dated 9th September 2022 advised that any unspent amounts for the immediate preceding year should be incorporated into the supplementary budget as guided by Public Finance Management Act 2012 Section 130. The Nairobi City County Assembly had processed payments in the FY2021/22 but by the close of the financial year, exchequers had not been released thus, informing the payments to be pending bills in the financial year 2022/23. The

pending bills of Ksh 177,325,909 of recurrent expenditure is incorporated in the budget.

Currently, the FY2022/23 total Budget for the County Assembly is Kshs.3,485,288,302 comprising staff emoluments of Kshs.789,138,818, cost of goods and services of Ksh.825,899,484, acquisition of assets of Kshs.9,250,000, transfers to Assembly funds of Kshs.651M and capital and development of Kshs.1,210,000,000.

A summary of this expenditure has been provided below.

This indicates a drop in the recurrent budget ceiling for the County Assembly from Kshs.1.546B set for FY2021/22 to Kshs.1.447B proposed for the FY2022/23. With this budget reduction the County Assembly set expenditure priorities for the FY2022/23 will be constrained.

Under development, the main projects to be undertaken include construction of non-residential buildings (Assembly Offices), acquisition of County Assembly Speaker's residence, construction of ward offices, and purchase of integrated security access system. Further through this budget the Assembly will require additional funding to the scheme fund for provision of car loan and mortgage benefits to the Third Assembly members.

In addition to the above specified projects, the County Assembly will be undertaking the usual operational activities which includes medical insurances, continuous capacity building for the Members, strengthening the oversight function of the County Assembly, transfer of the gratuity benefit for the Members to the appointed gratuity administrator among other critical operational activities.

CONCLUSION AND RECOMMENDATION

The Nairobi City County Assembly has come a long way since its inception in 2013 after the General Elections that marked full implementation of Devolution in Kenya. Major strides have been made in ensuring the County Assembly achieves its mandate of Legislation, Oversight and Representation. There is more work ahead in ensuring this mandate is continuously achieved and perfected. These financial estimates for the Financial Year 2022/23 marks part of the tools that will ensure that this is achieved.
