NAIROBI CITY COUNTY

NAIROBI CITY COUNTY ASSEMBLY  
SECOND ASSEMBLY - FIFTH SESSION

REQUEST FOR STATEMENTS

Hon. Speaker, Pursuant to Standing Order 45 (2) (c), I wish to request for a statement from the Chairperson of the Sectoral Committee on Transport and Public Works regarding fleet management operations of County vehicles, especially the administration of fueling, repair and or garage services.

Hon. Speaker, the administration of fueling services and garage services for county vehicles was well administered in the defunct city council, which arrangement made it easy for the operation of county vehicles, even for critical services such as fire and emergencies. This system was inherited by the County in 2013. For instance, the County had a garage for its vehicles in Industrial Area, and a fueling station with six pumps and tanks for all its vehicles and their operations.

Hon. Speaker, this was however changed at some point, and repair services opened to other players, while fueling is now reserved for one Shell Petrol Station in Gigiri. As a result, County vehicles, even fire trucks and bulldozers and other critical services, have to make the journey to Gigiri before embarking on any works across the County, a tiresome and time consuming exercise that's costing the county man hours and public funds.

Hon. Speaker, in the statement the Chairperson should inquire into and report on:

1. Reasons for the reservation of fueling services to only one Shell Petrol Station in Gigiri and the breakdown of the County's garage services in industrial area;
2. Table documents of the procurement process by which the County decided on the one Shell fueling station and the documents for that approval thereto;
3. Ownership of the said Shell Petrol station and whether there is any evidence of conflict of interest or corruption for such an irregularity;
4. Measures being put in place to ensure the County fueling station in industrial area is operational and the garage fully working if the two broke down; and
5. Comprehensive list of all county vehicles as of 2020/2021 and their service history and fueling costs in summary, showing the difference in efficiencies if any, between the County run fueling and garage services and the use of private providers such as Shell Petrol Station in Gigiri.

HON. PAUL K. KADOS, MCA
